**WHEN WE SAY**

**“ACTION”**

**VETS GO TO WORK.**

## WHAT IS VETS2SET?

V2S acts as an open door for veterans, helping them jumpstart a career in the commercial production business.

Co-founded by David Cohen, Peter Friedman and Colonel (ret) Maureen Weigl, V2S is a not-for-profit organization that provides U.S. military veterans:

- ☆ Introduction
- ☆ Apprenticeship
- ☆ Training
- ☆ Meaningful employment in commercial production

## BENEFITS

- ☆ Your own personal network of production professionals
- ☆ Unique job opportunities personalized to your skill set
- ☆ Meaningful employment & networking opportunities
- ☆ Opportunities to work on additional commercials as well as expanding into longer format projects

## OUR MISSION

To help veterans find jobs in the commercial production industry and get on-the-job training as apprentices with the goal of becoming full-time crew members, launching a life-long career.

## HOW IT WORKS

Vets2Set will maintain a proprietary database of veterans' personal and professional information that a production company needs when staffing a production. Production companies will reach out directly to veterans when a production is starting and will then enlist two veterans for a job.

Payment to each veteran is made directly by the production company. Each veteran will fill out a W9 tax form at the start of employment. Each day a time card is filled out and tracked by the production company, same as for all their employees. At the conclusion of the job all appropriate taxes will be deducted, as designated by the veteran, and a check will be sent from the production company directly to the veteran. At no time does any payment come to V2S.

A simple completion report will be filled out at the conclusion of each job and logged into our proprietary database. This helps V2S track the success of the program.

## GET IN TOUCH

Whether you're a veteran, an industry employer, or a future donating partner, VETS2SET is here for you.
